Field Epidemiology in a Changing World: Advancing Health amidst the Evolving Ecosystem and Technology

List of Accepted Abstracts for presentation at the 2nd SAFETYNET Scientific Conference in Kuala Lumpur, Malaysia on September 2025

We are delighted to announce the acceptance of abstracts for the 2nd SAFETYNET Scientific Conference. This year's submissions showcased exceptional work from current trainees and recent graduates of field and applied epidemiology training programs in the region. The accepted abstracts are listed in three categories by Long Oral Presentations (10-minute presentations), Short Oral Presentations (8-minute presentations), and Poster Presentations. The table for each category is organized alphabetically by country for easier navigation.

Authors of accepted abstracts have been notified by email. We look forward to sharing these impactful studies and fostering meaningful discussions during the conference.

Congratulations to all whose work has been selected!
